

Science Experiment Rubric	
10	Student completed observation sheet and clearly demonstrated knowledge learned in class. Detailed descriptions using scientific terms were used properly. Student analyzed results of experiment and drew appropriate conclusions.
5	Student completed observation sheet and demonstrated some knowledge learned in class. Some detailed descriptions and some scientific terms were used. Student demonstrated some analysis of experiment and drew conclusions that were not necessarily appropriate.
1	Student completed lab observation sheet, but demonstrated only limited knowledge learned in class. Few detailed descriptions or scientific terms were used. Limited analysis was demonstrated and conclusions were not appropriate.
Total Points _____	10-Expert 5-Apprentice 1-Novice
